Subject Location of mining history source data -
NM AUM inventory Project

Ladonna:

I'm following up on the NM AUM conference call from last week. Attached is a list of the records/files, and their location, that the Mining and Minerals Division reviewed to establish uranium mine ownership and operators.

A lot of our information came off several publications authored by McLemore and Chenoweth through the N.M Bureau of Geology and Mineral Resources. These papers used the Atomic Energy Commission production records as primary sources.

Regards,

Susan A. Lucas Kamat
Geologist, New Mexico Mining and Minerals Division
1220 South St. Francis Drive
Santa Fe, NM 87505
